Re: Exempt - Initial - IRB-FY23-386 ACLS simulation and student self-efficacy: A scaffolded approach

Use of Evidence-Based Practice (EBP) in all clinical courses & sections (On-Going). (January 11, 2022 - Present).

EBP expectation in all reflective clinical documentation: All of my NUR360L clinical juniors as well as my NUR430L & NUR410L seniors go to the hospital library (with computers) or computer lab immediately post clinical with me.

There they all document their clinical experience reflection which includes pulling in a published journal article related to their clinical experience into their written reflection.

Using Canvas Speed-Grader, I also frequently attach EBP links in assignment feedback to students.

"Vaccine Safety Publications | Research Participant | Vaccine Safety | CDC" (On-Going). (January 27, 2021 - Present).

Fri, Dec 16, 2022: Deb, Thank you for participating in v-safe to help CDC monitor vaccine safety. V-safe data have contributed to over 20 studies:

I last updated my status report 5/7/2023.

IRB application – "College Bound Sisters (CBS): perceptions of long-term outcomes" (On-Going). (August 2020 - Present).

College Bound Sisters (CBS): perceptions of long-term outcomes

Request to survey interview women who participated in the UNCG Grant-funded College Bound Sisters (CBS) program of 20 years ago.

Started planning this with my graduate student of last semester, now MSN, Laurie Smith, MSN, RN
IRB assistance from Dr. Wallace.

Laurie worked as the CBS program director for about 8 years.

We both knew & worked with the initial grant writers, Drs. Brown & Saunders.

IRB submission Feb. 2021; IRB edits/clarifications addressed & re-submitted March 2021.
